

DIY PEDAL-POWERED  
ACTIVIST COMMUNITY

# ECOTOPIA BIKETOUR 2013

**BERLIN > SOUTH EAST  
12 JULY - SEPTEMBER  
BEYOND BORDERS**

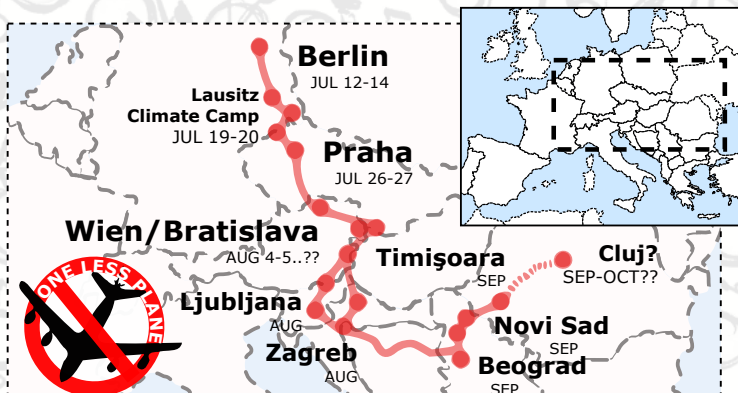

Ecotopia Biketour is an eco-mobile do-it-yourself activist community cycling every summer for 20 years. We aim to learn from each other and the local groups we visit, supporting their campaigns in creative ways. We carry all of our equipment on **bikes & trailers** and make **group decisions by consensus**.

From July to September, we will cycle from **Berlin** to **South-east Europe** (Serbia, Romania or Slovenia) whilst sharing skills and experiences from environmentalism; activism; and ecological and social justice. We will visit projects and aim to inspire action towards **economic equality; solidarity; the commons; anticapitalism and freedom** amongst other topics to raise collectively about this year's theme **Beyond Borders!**

A project for everyone interested in being part of a community and travelling without engines – **the exact opposite of an all-inclusive flight to the beach!**

**CYCLING EVERY SUMMER FOR 23 YEARS**
