

2011

IS TAKING ACTION FOR  
SUSTAINABLE AGRICULTURE

ITALY 27th of July/31st of August

We are an **eco-mobile do-it-yourself activist community** emerging **every summer** already for 21 years. We aim to learn from each other and **local groups we visit on our way, supporting their campaigns**. We carry all our equipment on bikes & trailers and make all the group decisions by **consensus**; a project for everyone interested in being part of a community and **traveling without engines** –the exact opposite of an all-inclusive flight to the beach! To join us all you need is a bike, loads of enthusiasm for community life and be keen to create environmental and social change, not climate change!

the power of  
**GOOD Wheeling !**
